

Niagara Falls PD: Law Enforcement

The Challenge

Niagara Falls Police Department works in partnership with the community to protect life and property, solve neighbourhood problems, and enhance the quality of life in the City of Niagara Falls while protecting the rights of all and applying the highest standards of professionalism, integrity, and accountability.

Niagara Falls Police Department were looking for a reliable rapidly deployable camera solution to provide coverage to events, remote location & crime hotspots.

The Police Department were looking to invest in a truly autonomous solution – without limiting deployments to locations with fixed infrastructure or having to invest in costly temporary solutions.

The Solution

The WCCTV Solar Trailer was recognized as a solution to Niagara Falls Police Department. Weighing less than 1400lb – the solar trailer can be towed by most vehicles. With a 3.2MP PTZ camera, 22x optical zoom and with up to 4TB of local recording.

The trailer features a 360 degree, telescoping 20ft tower. The Solar trailer provides up to 520W of Solar Power & integrated Verizon-certified cellular transmission ensuring a completely autonomous solution.

This solution allows live and recorded images to be viewed from multiple locations without geographic restrictions on multiple devices – ensuring complete flexibility on each deployment.

Niagara Falls PD: Law Enforcement

The Result

Niagara Falls PD now has an autonomous, rapid deployment camera solution that can be installed in minutes.

The tower has possessed the capability of acting as a visual deterrent at events or within crime hotspots.

Being able to remotely monitor multiple locations using PC's and cellular devices, ensures that the device can be utilized as an effective force multiplier.

The Quote

"WCCTV delivered an extremely professional and high-quality solution which was an invaluable addition to the Niagara Falls PD; the Solar Trailer has been a great deterrent for discouraging crime.

The facility to monitor multiple locations remotely using our cells has been an added bonus, helping the force manage their teams and make key decisions quickly & efficiently."
