

WCCTV Body Worn Camera (Record)

WCCTV's Body Worn Camera (Record) captures video, audio and pictures on the move. Designed and manufactured in the UK to meet and exceed Home Office (CAST) standards for Body Worn Cameras, it boasts a wide range of market-leading functionality.

Key features include playback up to 1080p at up to 30 frames per second, with all footage date, time and GPS location stamped to ensure evidential usage.

The unit also contains inbuilt Wi-Fi capability to provide live transmission, and wireless downloading of footage when in range.

Easy to Use - For All Applications

The device has an illuminated front-facing screen - proven to assist with conflict management - and 120 seconds of pre-event recording to ensure incidents are not missed.

Its lightweight yet durable housing is IP65 rated to protect from dust and water damage, and can operate in temperatures from -20°C to +80°C.

It's simple, functional design lends itself to ease of use, with one button to start recording and one button to stop recording.

The rechargeable battery provides an operating time of up to 17 hours in standby mode, or 7 hours in full recording mode.

Charging and downloading of footage can be facilitated via WCCTV's Smart Hubs, removing the requirement for multiple adapters.

Complete Body Worn Video Solutions

WCCTV's Body Worn Cameras can be provided as part of a complete body worn video solution when used in conjunction with WCCTV's Evidence Management Software (EMS).

WCCTV's Evidence Management Software (EMS) provides secure management of videos and images taken from your WCCTV Body Worn Cameras.

EMS can be provided either cloud-based or standalone, and provides users with a digitally secure total case management solution - allowing the searching, storing and sharing of video files securely and easily.

A wide range of accessories to support the deployment of the Body Worn Camera (Record) are available.

Features & Benefits

- UK design and manufactured
- Up to 1080p playback at up to 30fps
- In-built Wi-Fi for transmission and wireless downloading
- GPS location information
- 2.8" front-facing display
- 125° horizontal x 78° vertical field of view
- Local recording up to 128GB
- IP65 rated
- 120 sec pre-event recording
- Evidence Management Software for case management
- Date and time stamping
- 7-17 hour operation
- Encrypted video

Applications

- Protection for police & civil enforcement
- Lone & vulnerable workers
- Deterrent to offenders
- Reduction in complaints against officers & complaint management
- Identification of offenders
- Conflict management

Specifications

General	Dimensions (HxWxD)	115mm x 65mm x 25mm
	Operating Temperature Range	-20 to +80°C
	Power	Li-Polymer battery
	Weight	200g
	Playback Resolution	Up to 1080p
	Operation	Record and playback
Video	Metadata	Date, time and GPS
	Maximum FPS	30
	Recording	H.264
	Snapshot Video Clip	Yes
	Encryption	128 AES video encryption
	Pre-event Recording	30 seconds, 60 second, 90 second or 120 second pre-event recording buffer
Storage	Archive Protection	Yes - protect against overwriting
	Internal Capacity	16GB, 32GB, 64GB, 128GB
	Storage Device	microSD Card
	Export	USB Interface / Removable SD Card
Operation	Battery Time (Recording)	7 hours, full HD resolution, 25fps
	Battery Time (Standby)	17 hours
	Display Screen	2.8 inch TFT colour display with QVGA resolution (320 pixels height and 240 pixels width)
	Light	LED white-light 5m illumination for day/night recording
	Charging	Standard USB charging with 500mA on a USB Host (PC, external powered USB hub) Fast USB charging with a 2A on an USB Charger WCCTV Smart Hub charging options available
	Network	LTE, 4G, 3G, GPRS, Wi-Fi 802.11n
	Warranty	12 months warranty with options for extended warranty
