

# WCCTV Mini Dome Solar Trailer

The **WCCTV Mini Dome Solar Trailer** is an autonomously powered rapid deployment video surveillance system that can be installed at practically any location, providing security for remote sites and assets on a temporary or permanent basis.

The trailer features a telescoping 20ft tower which rotates nearly 360 degrees, and is equipped with highly reliable 260W, 390W or 520W autonomous solar power which is suitable for most locations. Its low-voltage-disconnect protects electronics and batteries, while the solar array tilts from horizontal to nearly 90° vertical.

The system weighs less than 1400 lbs, making it towable by most vehicles, and its removable drawbar makes it easy to ship and provides added theft protection. Its 12VDC AGM batteries (up to 800 Ah total capacity) are housed in a secure, tamper-resistant battery box.

The trailer is fitted with up to 4 **WCCTV 4G HD Mini Dome** pole cameras that have been specifically designed to deliver live and recorded video securely and efficiently via 4G LTE networks.

The WCCTV 4G Mini Dome is an all in one rapid deployment pole camera, comprising a market leading ONVIF 2.0 PTZ low light camera, local recording capability (up to 4TB) and wireless transmission - all housed in a lightweight and portable unit.

The system also contains inbuilt video analytics functionality, capable of triggering live video or email notifications.

## Features and Benefits

- High speed 4G LTE and Wi-Fi video solution
- True rapid deployment surveillance capability
- 20ft vertical tower rotates nearly 360°
- Year-round autonomous operation
- Easy to transport
- Easy to install
- Purpose built wireless surveillance technology
- Theft protection
- High definition imagery over cellular networks
- Low power consumption
- Silent operation
- Best in breed trailer
- Best in breed wireless camera technology
- Full PTZ functionality
- Local recording up to 4TB
- Inbuilt video analytics
- Off-grid video surveillance applications
- Integration of additional cameras
