

WCCTV Mini Dome with Time Lapse Video

WCCTV's combined **Time Lapse Video** and rapid deployment pole camera system utilizes the additional output channels of either a WCCTV 4G IR Mini Dome or WCCTV 4G HD Mini Dome to integrate a specialized High Definition Time Lapse Video camera.

This unique all-in-one rapid-deployment video system combines all the benefits of WCCTV's Mini Dome pole camera range with advanced Time Lapse Video recording technology.

WCCTV provides full video editing and production services following the completion of your construction, demolition or refit project, and will work with you to create a time lapse video to your exact specifications.

We take the time to understand your objectives to ensure you receive a time lapse video that highlights your projects perfectly.

You will also be provided with access to WCCTV's dedicated online time lapse portal, where you can review images and footage, download progress videos and even embed the live stream into your websites.
