

WCCTV 4G Covert Mini Dome

Wireless CCTV (WCCTV) is the market leader for rapid deployment surveillance solutions specifically designed to deliver video securely and efficiently via 4G LTE networks.

WCCTV's product portfolio includes rapid deployment pole cameras, solar powered mobile video surveillance trailers, 4G LTE-enabled body cameras and time lapse video services.

The WCCTV 4G Covert Mini Dome

The WCCTV 4G Covert Mini Dome is a mobile video surveillance product specifically designed to discreetly blend into its environment and deliver live and recorded video via 4G LTE networks.

The 4G Covert Mini Dome combines a high definition PTZ camera, local recording capacity (up to 4TB) and wireless transmission technology into a single, lightweight unit.

The system is easy to install, easy to maintain, and can be moved to new locations to meet your changing requirements.

Live and recorded footage can be accessed via wireless networks including 4G LTE, 3G and Wi-Fi connectivity, allowing users to remotely view and download the video via mobile devices (smartphone, tablet, laptop or PC) or via an existing video management system.

The system is ideal for rapid deployment, and requires minimal supporting infrastructure for operation.

Service and Support

At WCCTV, we understand that each unique deployment of Mobile Video Surveillance cameras has different objectives, challenges and requirements.

That's why we have invested not just in world-leading technology, but also in the support services that enable our clients to effectively deploy their systems, get the results they desire and make their lives easier.

Services we provide include:

- Dedicated Telephone Support Team
- Remote Commissioning
- Assistance by WCCTV Engineers
- Performance Reports
- Onsite Training
- Remote Training

Features & Benefits

- Covert mobile video surveillance system
- HD video (up to 720p)
- 4G, 3G and Wi-Fi
- Day/night camera
- Remote control of PTZ
- Remote access to live and recorded footage via smartphone, tablet or computer
- Low power usage
- ONVIF compatible
- Easy to install and maintain
- Lightweight unit (6 lbs)

Possible Applications

- Illegal dumping
- Access control
- Infrastructure management
- Business and parking lot protection
- Government and city safety monitoring
- Public safety and crowd management

General	Dimensions (HxWxD)	8.2" x 7" x 4.5"
	Operating Temperature Range	-58 to +122°F
	Power	110 - 240 Volt input (mains powered) 12V DC Powered
	Power consumption	350mA
	Weight	6 lbs
	video inputs	1
Video	Operation	Simultaneous live, record, playback, remote access
	Maximum FPS	25
	Recording	Proprietary narrowband algorithm
	MutiMode (Recording Algorithms)	Dynamically changes record rates and compression settings for the camera
	Snapshot Video Clip	No
	Video Motion Search	Yes
	Archive Protection	Yes - Protect against overwriting
	Wireless Communication	Supported via suitable interface - 3G, 4G
Storage	Internal capacity	Up to 4TB
	HDD Types	Removable SATA hard drive
	Export	4G / Network / Removable hard drive
Alarms	Alarms and Relays	1 input N/O or N/C
	Alarm Function Support	Alarm log, event search, pre-event recording
	Alarm Reporting	Yes - to a remote site via email
	Display Alarm on PC Monitor	Yes or Network / 4G
	Video Motion Detection	Yes
Networking	Remote PC Client	Client software free download
	Remote Web Browser Client	Viewing
	Password Protected	Yes
	Remote Smartphone (iPhone) Compatible	
	Remote Tablet (iPad) Compatible	
	Software Upgrade	Internet / 4G / back to back PC
	Warranty	12 months warranty with options for extended warranty
