WCCTV 4G SOLAR MINI DOME

The WCCTV 4G Solar Mini Dome is an autonomously powered mobile video surveillance system specifically designed for monitoring and surveillance applications at off-grid and remote locations where power and mounting infrastructure are not available. A WCCTV Pole Camera is fitted with an ultra-slim, high-performance solar panel with full battery back up capability to allow deployment in practically any location.

The system can be deployed by two methods:

Option 1 - Solar Pole Solution: The solution comprises a WCCTV Pole Camera, secure battery enclosure charged by a single or double solar panel configuration mounted to a pole designed to suit your viewing requirements.

Option 2 - Solar Panel on Existing Pole: The solution comprises a WCCTV Pole Camera, solar panel and a long-life battery built into a secure enclosure that can be mounted to an existing pole.
