

# WCCTV

## Construction Jobsite Security & Surveillance

# Protect Your Construction Jobsite with WCCTV

## Security Solutions Built for Construction Sites

Securing construction jobsites doesn't have to be a challenge. WCCTV's solar-powered mobile surveillance cameras help you:

- Deter thieves and vandals
- Remotely manage your site in real-time
- Capture time-lapse documentation for your projects

We know your focus should be on completing your project - not worrying about security. That's why WCCTV offers a fully managed service:

- Surveillance equipment rental, installation, and maintenance
- 24/7 US-based remote video monitoring with live support
- US-based technical support and ongoing diagnostics

# Key Features & Benefits of Our Surveillance Systems

## Managed Service

Our fully managed service covers delivery, installation, connectivity, monitoring, maintenance, and support.

## Multi-Applications

Our cameras offer enhanced site security, remote project oversight, and time lapse video documentation to track progress.

## Drop-and-Go Systems

Our surveillance units run autonomously using solar power and cellular video transmission.

## Rental Options

Overcome any budget restrictions with your range of rental plans, designed to meet your needs.

## Visible Deterrent

WCCTV's highly-overt surveillance units immediately warn would-be intruders and criminals.

## Remote Camera Access

Manage your site from anywhere with our free mobile app and desktop software.

# Mobile Solar Trailers for Construction Jobsites

## Your Jobsite's 24/7 Watchdog

**WCCTV's Solar Surveillance Trailers deliver immediate, proactive security to protect your jobsite against criminal activity.**

Purpose-built for demanding construction environments, they are a reliable solution for securing valuable equipment and materials, and at 20ft high, they are a strong show of force - alerting would-be intruders that your site is protected by video surveillance systems.

No power or internet? No problem. Our solar-powered trailers operate autonomously, using LTE connectivity to provide live video monitoring 24/7 - even at remote or off-grid locations.

Installation is quick and easy, taking just minutes, so you can minimize downtime and get the protection you need fast. As your project progresses, the trailers can be easily relocated to adapt to changing site layouts.

# Pole Cameras for Jobsite Security & Surveillance

## Deploy in Minutes. Protect for Months

WCCTV's Pole Cameras offer a fast, flexible security solution for construction sites. They can be deployed as standalone units or paired with our Solar Surveillance Trailers for expanded coverage.

Designed for rapid deployment, these cameras operate completely autonomously with built-in cellular transmission - no need for Wi-Fi or hardwired power when powered by our solar trailer.

Key Features:

- Pan-Tilt-Zoom (PTZ) Functionality
- Edge-Based Video Analytics
- 1080p HD Video Quality
- Infrared Night Vision
- Remote Access

# Explore Our Range of Surveillance Solutions

## **4G IR Mini Dome**

An all-in-one mobile surveillance unit that combines an HD camera, local recording, and cellular transmission into a portable unit.

# Temporary Jobsite Security with Rentals

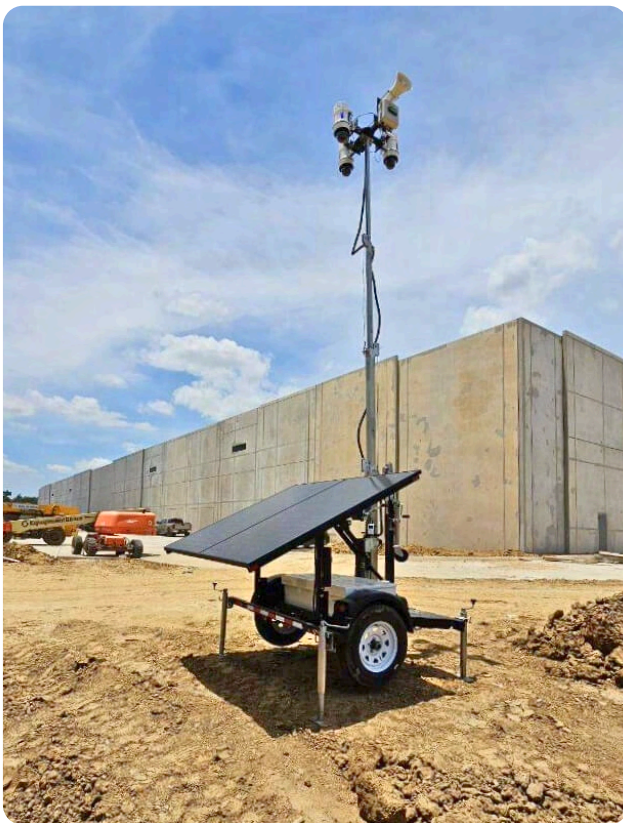

## Rent. Deploy. Secure Your Jobsite.

**Renting a mobile surveillance camera is one of the most effective ways to protect your jobsite from theft and criminal damage.**

A highly visible surveillance trailer acts as a strong deterrent, but purchasing security equipment can be expensive - not to mention the ongoing costs of upgrades and maintenance.

Since construction projects are temporary, outright purchase may not be the most cost-effective option. Renting a jobsite security camera gives you the protection you need without long-term commitments.

Our flexible rental model allows you to scale your security as needed, renting only the equipment you require when you need it. As your jobsite evolves, you can adjust your surveillance coverage to match your project demands.

# The Smart Choice: Renting Jobsite Trailers

## Flexible Rentals, Maximum Security

**Renting mobile surveillance cameras is a simple, cost-effective way to protect your jobsite without long-term commitments.**

With our flexible rental model, you get high-performance security when you need it, without the burden of ownership. No need to worry about storage, transportation, or installation - we handle everything for you.

Why Rent Security Systems from WCCTV?

- Immediate Cost Savings
- Simplified Procurement
- Effortless Deployment
- Always Up to Date

# Complete Jobsite Security, Managed for You

## End-to-End Security Services

**We understand that as a project manager or construction business owner, security is just one of many responsibilities on your plate.**

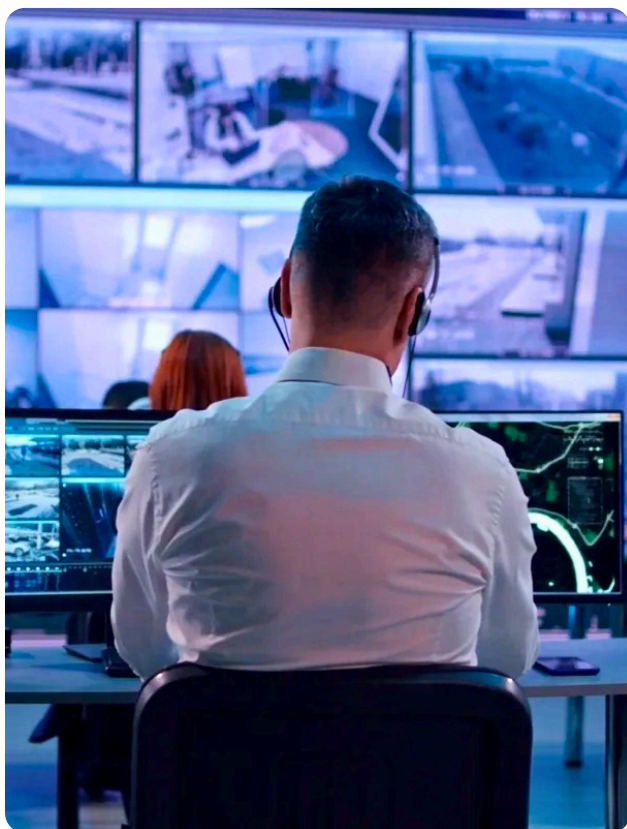

That's why WCCTV offers a fully managed service to simplify jobsite security and let you focus on your projects. Our managed service includes:

- Site walks and Surveillance Trailer hire
- Equipment setup and connectivity
- Remote video monitoring and crime prevention response
- 24/7 US-based customer support
- Free access to our mobile app for live monitoring

Let WCCTV handle your jobsite security so you can get back to managing your project.

# Video Monitoring for Construction Security

## Your Virtual Security Guard

**Installing surveillance units at your construction jobsite is the first step to protecting your people, materials, and equipment. But with WCCTV, you get more than just cameras - you get a fully automated virtual security guard.**

Our cameras are equipped with advanced AI video analytics that detect unauthorized activity in real time. When an intrusion is detected, an alarm is sent directly to our monitoring professionals for immediate review and action.

Based on the situation, we can:

- Activate built-in blue lights, sirens, and alarms to deter intruders.
- Issue live audio warnings to trespassers.
- Contact local law enforcement or security guards if necessary.

# Document Your Jobsite with Time Lapse Cameras

## See Your Construction Project Come to Life

**WCCTV offers high-quality Time Lapse Video cameras and production services tailored for construction, demolition, and infrastructure projects.**

Our team works with you to capture your project's progress, focusing on your specifications and key milestones to deliver a time lapse video that showcases every detail.

Even if your site lacks power, camera mounting poles, or connectivity, we can provide a seamless time lapse solution, ensuring no project goes undocumented.

Our creative team handles all post-production, turning your footage into a professional, interactive video complete with music, animations, and text overlays - perfect for sharing with stakeholders or promoting your achievements.

# Why Choose WCCTV for Your Surveillance Solution

## USA's Most Established Surveillance Supplier

Formed in the UK in 2001, WCCTV is the global leader in manufacturing and supplying mobile video surveillance products specifically engineered to operate via cellular networks.

The Company established a US-based headquarters in Dallas, Texas, in 2015. Our growth has been rapid, with additional premises opening in Austin, Houston, and Chino, California.

We differentiate our offering by providing a turn-key solution for video surveillance, supplying our hardware systems with a comprehensive service that covers equipment installation, LTE connectivity, video monitoring, maintenance, and US-based customer support.

Our market-leading status is maintained by a continual focus on product development and client needs.
