

WCCTV

Education Campus Safety & Security

Surveillance Cameras for Campus Security

Secure Your Education Campus

WCCTV is the USA's leading supplier of mobile video surveillance units to K-12, higher education campuses, and ISD Police Departments.

Our relocatable, autonomous security cameras help to enhance safety for staff, students, and visitors by providing a highly visible deterrent, and by delivering real-time video streams to help eradicate:

- Violence and disorder
- Non-authorized access to campus
- Drug and gang activity
- Vandalism
- Parking lot crimes

Our cameras empower campus police and security teams to respond to events, prevent crimes, and document any incidents that occur.

Key Features & Benefits of Our Surveillance Systems

Rapid Deployment

Our plug-and-play surveillance units can be installed in a matter of minutes, bringing enhanced security.

Relocatable

Our portable and easy-to-move units can be quickly relocated to address changing surveillance priorities and fill security gaps.

Autonomous Operation

Our solar units operate independently of power and internet facilities, making them incredibly flexible.

NDAA-Compliant

All of our units are fully NDAA-compliant, providing the highest levels of data integrity and use for federal institutions.

Visible Deterrent

Our highly visible mobile surveillance units have an unmistakable security presence, reassuring staff and students.

US-Based Support

Our cameras are made and supported in the US, and we provide ongoing deployment support for the units lifetime.

Solar Surveillance Trailers for Campus Safety

Rapid Deployment Security Units

Our Surveillance Trailers are an autonomously powered, portable system that can be deployed to any campus facility regardless of onsite power or internet availability.

They are the ideal solution for increasing surveillance coverage at security hotspots such as parking lots, providing additional eyes on the ground during sporting events, or managing campus access.

Solar trailers can be customized to match your security needs. They can be fitted with up to 4 camera options, including infrared PTZ pole cameras, LPR units, and multi-directional camera systems. They can be enhanced with voice-down audio, lights, and sirens.

Deploying a solar trailer couldn't be easier. In minutes, you can have additional security coverage, and you can move the units if your security requirements change.

Pole Cameras for Campus Security

Deploy in Minutes. Protect for Months

WCCTV's rapid deployment pole cameras are ideal for providing temporary monitoring and targeted security for short-term campus security scenarios such as political demonstrations or major sporting events.

They utilize cellular connectivity for video transmission, are easy to install, cost-effective, and offer a fix-power-walk-away setup.

As all-in-one mobile surveillance systems, the units comprise an infrared pan, tilt, and zoom (PTZ) camera, onboard video storage, edge-based AI video analytics, and cellular transmission technology in a lightweight housing that is easy to install, requires zero maintenance, and can be moved to new locations if your applications change.

The systems can be powered by mains electricity or be provided as part of our Mini Dome Solar Trailer.

Explore Our Range of Surveillance Solutions

4G IR Mini Dome

An all-in-one mobile surveillance unit that combines an HD camera, local recording, and cellular transmission into a portable unit.

Purchasing Surveillance Cameras For Your Campus

Maximize Your Surveillance Investment

WCCTV offers schools and universities the option to either purchase or rent mobile surveillance units, allowing us to meet both long and short-term security requirements.

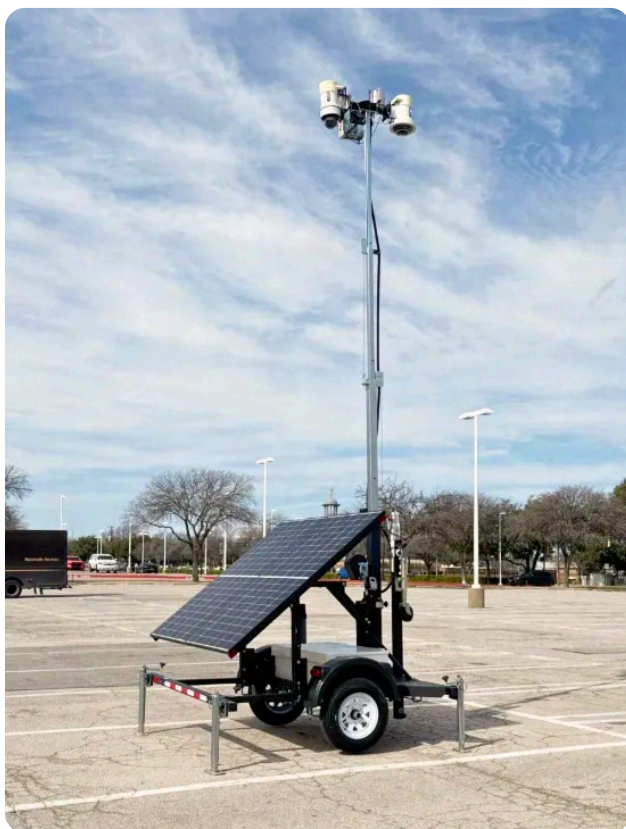

Purchasing cameras delivers several benefits, including long-term cost savings and the assurance that you always have cameras available when you need them most.

As WCCTV surveillance units are completely portable, you're not stuck with the cameras in one place; you can react dynamically to changing surveillance requirements.

When you purchase from WCCTV, we provide the following: delivery and set up with an expert technician, US-based aftercare support team, and a Desktop and Mobile App software included or integration with your VMS.

Surveillance Rentals for Campus Security

Temporary Camera Hire

We recognize that budget constraints can limit ISD Police or Campus security teams from expanding surveillance capabilities.

So we have designed flexible rental packages for our surveillance cameras and solar trailers in addition to offering them for sale.

Renting cameras is a cost-effective way to expand your surveillance fleet without the commitment of a full purchase. It also allows you to adapt to changing needs and budgetary considerations.

Whether you want to increase surveillance coverage for a specific event, address a temporary security need, or test the waters before committing to a purchase, our rental options can help meet your objectives.

Benefits of Renting Campus Security Cameras

End-to-End Security Services

Renting our Solar Surveillance Trailers on a temporary basis provides several significant benefits, including a simplified procurement process and allowing campuses to only pay for the security they need.

You also won't need to worry about storage, transporting the camera units, or installing the equipment - we take care of everything.

Some of the benefits of Solar Trailers include:

- **Immediate Cost Savings:** Only pay for the equipment when you need it
- **Easier Procurement Process:** Fewer sign-off requirements
- **Convenience:** Full setup and installation support
- **Latest Equipment:** You'll always have the most up-to-date equipment with the latest technology built in as standard

NDAA-Compliant Surveillance Cameras

Securely Vetted Surveillance

WCCTV's surveillance products are fully NDAA (National Defense Authorization Act) compliant, meeting the strict requirements for use by federal-funded organizations.

This approval also allows our cameras to be purchased via our GSA Schedule, so education facilities that receive federal funding can use them with complete confidence.

Our NDAA compliance means our cameras not only deliver high-quality performance but also adhere to the highest security standards, guaranteeing reliability and data integrity in sensitive deployment scenarios.

Our ongoing commitment to security, integrity, and quality is why our mobile cameras are the preferred choice for higher education campuses.

Why Choose WCCTV for Your Surveillance Solution

USA's Most Established Surveillance Supplier

Formed in the UK in 2001, WCCTV is the global leader in manufacturing and supplying mobile video surveillance products specifically engineered to operate via cellular networks.

The Company established a US-based headquarters in Dallas, Texas, in 2015. Our growth has been rapid, with additional premises opening in Austin, Houston, and Chino, California.

We differentiate our offering by providing a turn-key solution for video surveillance, supplying our hardware systems with a comprehensive service that covers equipment installation, LTE connectivity, video monitoring, maintenance, and US-based customer support.

Our market-leading status is maintained by a continual focus on product development and client needs.
