Law Enforcement Agencies

Surveillance Cameras for Law Enforcement

Advanced Security Cameras

Law Enforcement and Police Departments are utilizing Pole cameras and solar surveillance trailers across the United States to protect local communities and bolster their force.

Mobile Surveillance Cameras can be utilized for both overt crime deterrence and covert surveillance. Typical use cases include:

- Crime prevention and investigation
- Public safety and crowd management
- Traffic management
- Illegal dumping
- Business and parking lot security
- Major events safety and security

Key Features & Benefits of Our Surveillance Systems

Targeted Surveillance

Our Rapid Deployment Cameras can be deployed to high-crime areas to enhance security and provide coverage.

NDAA-Compliant

Our entire product set is NDAA-Approved, utilizes non-Chinese components, and is available via GSA Schedule.

Visual Deterrence

Our highly visible surveillance units are an unmistakable presence that increases your department's show of force.

Rental Options

Overcome any budget restrictions with your range of rental plans, designed to meet your needs.

Ongoing Support

We provide free training, onboarding, and customer support from US-based offices for the lifetime of your products.

Free Viewing Software

All our products come with free access to our mobile app and desktop software, allowing live remote access.

Solar Surveillance Trailers for Police Departments

Any Location.

Any Application.

The Mini Dome Solar Trailer is an autonomously-powered mobile video surveillance unit that can be deployed to any location to deliver monitoring in high crime areas or provide public safety during events.

It can be fitted with up to 4 additional cameras such as PTZ Cameras, LPR, Multi Sensor, and static cameras that feature cellular video transmission allowing users to view and download video at any time from any device.

Deploying our Solar Trailers couldn't be easier. In minutes, you can have extra eyes on the ground, and they can be moved to new locations if new surveillance priorities emerge.

Solar Trailers are ideal for locations without fixed power or internet access, or for short-term deployment wherever temporary, flexible, and reliable security coverage is required, such as construction sites, remote infrastructure etc.

Pole Cameras for Law Enforcement and Police

Temporary Security. Targeted Surveillance.

Our Rapid Deployment Pole Cameras are a video surveillance solution that combines a HD PTZ security camera with onboard recording, cellular transmission, and smart AI analytics into a portable unit that is easy to install, maintain, and relocate as surveillance needs change.

Live and recorded video can be accessed at any time from any device - or feeds can be integrated into your existing video management platforms (VMS).

Our cameras offer multiple benefits over traditional security cameras, including ease of installation, reduced setup costs, and flexibility in deployment - once the problem is solved, the cameras can easily be relocated.

Flexible Options for Police Departments

Flexible Purchase Models

WCCTV offers police departments the option to purchase or rent mobile surveillance units.

Owning your equipment offers several benefits, including long-term cost savings and the assurance that you always have a fleet of surveillance cameras available when needed.

The portability of WCCTV units means you're not stuck with cameras in one place, and you can dynamically react to changing surveillance requirements.

When you purchase from WCCTV, we'll provide:

- Delivery and set up with an expert technician
- US-based aftercare support team
- Desktop and Mobile App software included or integration with a compatible system

Benefits of Renting Surveillance Cameras

Why Rent Police Security Cameras

Solar Surveillance Trailers are available on a rental or hire basis, making the procurement process easier and allowing you to hire surveillance equipment when you truly need it.

When hiring, there's no need to worry about storage, transporting it around, or installing the equipment - we take care of everything.

Some of the key benefits of hiring surveillance equipment and Solar Trailers include:

- Immediate Cost Savings
- Easier Procurement Process
- Convenience
- Latest Equipment

NDAA-Compliant Surveillance Cameras

Highest Security Standards

All of WCCTV's surveillance products are NDAA (National Defense Authorization Act) compliant, meeting the stringent requirements for use in government security applications.

This approval allows our cameras to be purchased via official channels such as our GSA Schedule, and they can be used with complete confidence by our law enforcement and government clients.

Our cameras deliver market-leading performance and adhere to the highest security standards, guaranteeing reliability and data integrity in sensitive deployment scenarios.

We're committed to security, integrity, and quality which is why our mobile cameras are the preferred choice for government safety and security applications.

Why Choose WCCTV for Your Surveillance Solution

USA's Most Established Surveillance Supplier

Formed in the UK in 2001, WCCTV is the global leader in manufacturing and supplying mobile video surveillance products specifically engineered to operate via cellular networks.

The Company established a US-based headquarters in Dallas, Texas, in 2015. Our growth has been rapid, with additional premises opening in Austin, Houston, and Chino, California.

We differentiate our offering by providing a turn-key solution for video surveillance, supplying our hardware systems with a comprehensive service that covers equipment installation, LTE connectivity, video monitoring, maintenance, and US-based customer support.

Our market-leading status is maintained by a continual focus on product development and client needs.
