

WCCTV 4G Mini Dome + LPR

Wireless CCTV (WCCTV) is the market leader for rapid deployment surveillance solutions specifically designed to deliver video securely and efficiently via 4G LTE networks.

WCCTV's product portfolio includes rapid deployment pole cameras, solar powered mobile video surveillance trailers, 4G LTE-enabled body cameras and time lapse video services.

The WCCTV 4G Mini Dome + LPR

WCCTV's combined rapid deployment pole camera and LPR system utilizes the additional input channels of the WCCTV 4G IR Mini Dome +, WCCTV 4G IR Mini Dome or the WCCTV 4G HD Mini Dome to integrate a specialized License Plate Recognition Camera.

The system harnesses the wireless transmission (4G LTE, 3G or Wi-Fi), local recording (up to 4TB) and 360° PTZ field of vision of the Mini Dome to provide a complete situational overview, while the LPR camera delivers crystal-clear images of license plates in all weather and lighting conditions.

The WCCTV Mini Dome + LPR is ideal for security and project management applications, including data collection along highways, entrances to buildings, job sites or other secure facilities. It is also an ideal crime-fighting tool against illegal dumping and traffic violations.

The camera can read license plates day and night, in any weather condition on vehicles travelling up to 130mph.

Service and Support

At WCCTV, we understand that each unique deployment of Mobile Video Surveillance cameras has different objectives, challenges and requirements.

That's why we have invested not just in world-leading technology, but also in the support services that enable our clients to effectively deploy their systems, get the results they desire and make their lives easier.

Services we provide include:

- Dedicated Telephone Support Team
- Remote Commissioning
- Assistance by WCCTV Engineers
- Performance Reports
- Onsite Training
- Remote Training

Features & Benefits

- Combined pole camera and LPR
- High accuracy license plate recognition
- Day/night operation
- Any weather conditions
- Total situational overview
- Rapidly deployable, easy to install
- Totally portable
- High definition images

Possible Applications

- Illegal dumping
- Access control
- Infrastructure management
- Business and parking lot protection
- Government and city safety monitoring
- Public safety and crowd management
- Downtown cameras
- Parks and recreation

General	Dimensions (HxWxD)	11.5" x 7.5" x 7.5"
	Operating Temperature Range	-22 to +122°F
	Power	110 - 240 Volt input (mains powered) 12V DC Powered
	Power consumption	WCCTV Dome 24W @ 240V / LPR 15W Max
	Weight	WCCTV Dome 14 lbs / LPR 8.1 lbs
	video inputs	4
Video	Operation	Simultaneous live, record, playback, remote access
	Maximum FPS	25
	Recording	Proprietary narrowband algorithm
	MultiMode (Recording Algorithms)	Dynamically changes record rates and compression settings for the camera
	Snapshot Video Clip	No
	Video Motion Search	Yes
	Archive Protection	Yes - Protect against overwriting
	Wireless Communication	Supported via suitable interface - 3G, 4G
Storage	Internal capacity	Up to 4TB
	HDD Types	Removable SATA hard drive
	Export	4G / Network / Removable hard drive
Alarms	Alarms and Relays	1 input N/O or N/C
	Alarm Function Support	Alarm log, event search, pre-event recording
	Alarm Reporting	Yes - to a remote site via email
	Display Alarm on PC Monitor	Yes or Network / 4G
	Video Motion Detection	Yes
Networking	Remote PC Client	Client software free download
	Remote Web Browser Client	Viewing
	Password Protected	Yes
	Remote Smartphone (iPhone) Compatible	
	Remote Tablet (iPad) Compatible	
	Software Upgrade	Internet / 4G / back to back PC
	Warranty	12 months warranty with options for extended warranty
